

**ELECTRO-SHIELD**  
**CLEAR FLEXIBLE PLASTIC**  
**LIKE COATING**

PROTECTS COMPONENTS AND SURFACES  
 FROM WATER, WIND, DIRT, PARTICLES  
 AND OTHER ELEMENTS OF NATURE  
 GREAT FOR USE AS AN INSULATOR FOR  
 ELECTRICAL TERMINALS, JUNCTION BOXES,  
 EXTERIOR WIRE CONNECTIONS AND MORE

**PRODUCT # 1180**

FOR PROFESSIONAL USE ONLY.

**ELECTRO-SHIELD**  
*Clear Flexible Plastic Like Coating*

**ELECTRO-SHIELD Clear Flexible Plastic like Coating** has been formulated to protect electrical components and various surfaces from the harsh elements of Mother Nature. This unique product can be used as a parts protector, an insulator for electricity and is ideal for encapsulating wire nuts and cable connectors. **ELECTRO-SHIELD's** clear color, when dry, allows electrical components to be viewed for quick visual inspection of all wire leads.

**DIRECTIONS FOR USE:**

Apply **ELECTRO-SHIELD** evenly onto desired surface. It is suggested that enable to ensure a good margin of safety that product be applied at an even thickness and that air pockets must be taken into account.

**NOTE:** Do not spray on Running Electrical Motors or Live Wires. Disconnect all electrical equipment before using. Always allow a sufficient time for product to dry before reconnecting electrical equipment.

INGREDIENTS	CAS#
XYLENE	1330-20-7
POLY	9003-55-8
ALIPHATIC HYDROCARBON	110-54-3
HYDROCARBON PROPELLANT	68476-86-8

**Additional Information**

**ELECTRO-SHIELD** contains SBR, an elastomeric compound. This compound allows complete flexibility of wire components, inhibits bacteria and fungi growth in humid conditions and forms an extremely tight bond on any surface. **ELECTRO-SHIELD'S** high volume resistance material protects against corrosion and moisture; ideal when used on electrical terminals, junction boxes or exterior wire connections. **ELECTRO-SHIELD** when properly applied at 1/8" thickness can withstand up to 9,500 volts and when applied at 1/16" it can withstand up to 4,750 volts of electricity, making it ideal for use on any electrical component. Use **ELECTRO-SHIELD** as an encapsulant for exposed wire nuts and cable connectors or as a parts protector for complete weather protection. Contact your local **AIS** representative for a complete demonstration on the effectiveness of **ELECTRO-SHIELD**.
