

## LEMON PLUG OUT

Immediately dissolves grease, hair, cloth, paper sludge, etc. Harmless to plastic or metal plumbing excellent for use in x-ray lab drains  
Requires no mixing

PRODUCT#:3020

FOR PROFESSIONAL USE ONLY.

## Lemon Plug Out

**LEMON PLUG OUT** is a heavy duty liquid non-acid drain opener designed to remove clogs in the drain. **LEMON PLUG OUT** is especially effective on grease and hair because it contains sodium hydroxide. Except for aluminum, **LEMON PLUG OUT** is safe for plastic or metal piping, plumbing, and septic tanks. Easy to use and requires no dangerous mixing. This product is also excellent for use in x-ray laboratory drains.

### DIRECTIONS FOR USE:

Pour 1 pint (½ bottle) of **LEMON PLUG OUT** directly into drain and allow to stand for ½ hour. Repeat if necessary. Extremely heavy grease stoppage may require overnight contact. Large industrial drains need 1 quart of **LEMON PLUG OUT**, let stand for ½ hour, flush and repeat if necessary. For preventative maintenance, use 1 pint of **LEMON PLUG OUT** weekly to prevent sludge build up.

We at AIS are doing our share as a responsible company to help keep our natural resources and environment clear and clean. We are pleased to introduce our new line of earth friendly, biologically degradable products that meet and exceed our usual high standards of excellence and performance while still meeting your requirements as the end user.

## Additional Information

**LEMON PLUG OUT** non-acid liquid drain opener is an advanced product designed to be as powerful as a sulfuric acid type drain opener without the hazardous conditions common to the use of acid chemicals. This formula is a special blend of sodium and potassium hydroxide and is especially effective on grease, fats, soap scum, hair and sludge. **LEMON PLUG OUT** is many times heavier than water and will travel through standing water to put the power at the point of blockage. Many drain openers will generate foul odors like a "rotten egg" smell and others will cause bad odors simply from heating up the sludge in the pipes. **LEMON PLUG OUT** does not generate any heat and creates no bad odors whatsoever. **LEMON PLUG OUT** dissolves the blockage and the build-up on contact without any volatile chemical reactions. This safer and odor free method of drain maintenance is ideal for restaurants, hospitals, nursing homes, hotels, office buildings department stores, etc., Because foul odors at any one of the facilities would generally be unacceptable. For a demonstration of **LEMON PLUG OUT**, contact your local AIS Representative.
