

A safe application for ease in pulling plastic, rubber or synthetic covered wire through plastic, aluminum or steel conduit. **EASY-PULL-Q** protects conduit against internal corrosion. Contains no ingredients that might harm wire or conduit. **EASY-PULL-Q** is a thick lubricant that surrounds wire completely and won't run out conduit ends. **EASY-PULL-Q** is a heavy duty cable lubricant for use with all types of cable. **EASY-PULL-Q** is a thick, blue gel that is easy and quick to apply. **EASY-PULL-Q** is UL listed (ID # 842F).

**DIRECTIONS FOR USE:**

Apply **EASY-PULL** into conduit. Product coats wire and cable with a clean, slippery film. Apply liberally to cable jacket during pulling. Product should be used at room temperature for best results.

**QUARTS INGREDIENTS**

DEIONIZED WATER  
POLYETHYLENE GLYCOL  
POLYPROPYLENE GLYCOL

**CAS NUMBER**

**EASY-PULL-Q** Contains no reportable hazardous ingredients under CFR 29, 1910.1000. There are no OSHA or ACGIH threshold limit values for the product or any of

## Additional Information

**EASY-PULL** is a remarkable product that makes the difficult task of pulling wire through long and twisting conduits fast and easy. It's true that wire pulling lubricants have been around for a long time, however, they have always been more trouble than convenience. Most products are sticky and messy, staining clothing, carpets and the user's skin. **EASY-PULL** is a wonderful product to work with, combining excellent performance with ease and convenience. **EASY-PULL** wipes clean from wire and conduit and is easy to clean from clothing, gloves and hands. **EASY-PULL** aerosol is a foam dispensed into conduit through a plastic tube while **EASY-PULL-Q** is a blue gel, UL listed, and packaged in a familiar quart sized squirt bottle. With either product, **EASY-PULL** is the best and most convenient wire pulling lubricant on the market. For more information or a demonstration contact your local **AIS** representative.
