

## **BRITE** Porcelain & Tile Cleaner

**BRITE** cleans, brightens and deodorizes all bathroom surfaces in one easy application. Use **BRITE** to clean wash basins, sinks, fiberglass, shower stalls, walls, doors, bathtubs, toilet bowls, ceramic tile, tile grout, chrome & brass fixtures, drinking fountains and more. This unique formula clings to vertical surfaces to increase cleaning power. Safely removes soap scum, hard water deposits, scale, lime and other discoloration from all bathroom surfaces. **BRITE** contains no abrasives and no bleach.

### **DIRECTIONS FOR USE:**

Dilute with at least 5 parts water before use. Apply with sponge, bowl mop or brush. Let solution remain on surface for 30 seconds. Agitate lightly then rinse thoroughly with water. Repeat if necessary.

NONYL PHENOL ETHOXILATE	9016-45-9

## Additional Information

**BRITE** Porcelain and Tile Cleaner is a great product for all around bathroom cleaning. This powerful formula dilutes with 5 parts water for a full strength mixture to make the end use cost less than ready to use products. **BRITE** feature a heavy gel base that clings to vertical surfaces allowing extended contact time for more complete cleaning. This product cleans and deodorizes to save time and is safe to use on all bathroom surfaces including chrome and brass fixtures. **BRITE** uses a blend of cleaning compounds that has the power to remove heavy build-ups of soap scum, scale, rust, lime and other mineral deposits. With conventional cleaners, you normally have to use one product for soap scum due to the greasy soap base and another product for scale and hard water deposits due to the mineral base. **BRITE** is one cleaner that does both and this advanced formula works equally well on all types of grime and surfaces. Contact your local **ais** representative for a demonstration of **BRITE**.
