

AMER GREEN

NEW REVOLUTIONARY ACID-FREE FORMULA

AMER-GREEN is a unique 60% active organic salt that performs like a hydrochloric acid. It can be used in place of hydrochloric acid. AMER-GREEN can be used in many traditional cleaning applications, including hard surface cleaning and dissolving water insoluble salts. AMER-GREEN is also phosphate free and contains no volatile organic substances. It does not fume and is much safer and easier to use than other acids.

WARNING: Irritant. Harmful if swallowed. Avoid contamination of food in the use and storage of this product. Surfaces subject to direct food contact must be rinsed with potable water.

CAUTION: Consult M.S.D.S. When mixing with other chemical compounds. Do not let chemical stand on aluminum or mild steel.

PRECAUTION: Avoid contact with eyes. Do not take internally.

FIRST AID: In case of eye contact flush with water. If irritation persists see a physician. If swallowed do not induce vomiting. Give patient large quantities of water, followed by 1 to 2 glasses of milk if available. Consult a physician immediately.

AMER GREEN

NEW REVOLUTIONARY ACID-FREE FORMULA

AMER GREEN is a powerful and completely safe biodegradable, non-corrosive, all purpose cleaner for removal of hard water deposits, tough to get out rust stains and industrial staining of concrete. As with most products that remove scale, there exists corrosive vapors. However AMER GREEN has absolutely no harsh fumes making it safe as well as biodegradable. It's thick clinging formula allows for a longer clean time. AMER GREEN cleans tile and grout, porcelain, toilet bowls and bath tubs. AMER GREEN is also phosphate free and contains no volatile organic substances. It does not fume and is much safer and easier to use than other acids.

DIRECTIONS FOR USE:

CLEANING AND DEODORIZING: Use at full strength. Let stand for a few minutes. Wipe with cloth or industrial towel and rinse. For heavy hard water build-up it is helpful to use a 3M scrub pad.
