PRODUCT CODE NUMBERS:
#4016, #4023 AND #4024

AIR-AIDE II, AIR-AIDE PEACH and **AIR-AIDE VANILLA** Total Release Malodor Counteractants are designed to eliminate odors in a large area by releasing a volume of product that eliminates airborne odors as well as odors embedded into walls, carpets, ceiling tiles, drapery, upholstery, etc. **AIR-AIDE** is a high powered, fine mist, total release fogger that will penetrate and chemically neutralize malodors at the source. **AIR-AIDE II** has a delightful cinnamon scent while **AIR-AIDE PEACH** and **AIR-AIDE VANILLA** are fresh & sweet.

DIRECTIONS FOR USE:

For maximum effectiveness close all doors, windows, etc. and shut off all ventilation systems that move air to and from the area to be treated. Remove any pets and lightly cover any fish bowls. Cover or put away any food items or food utensils. After treatment, thoroughly clean all food prep surfaces and equipment prior to use. Turn out all electric lights and pilot lights. Use one can for each 6,000 cubic feet of unobstructed area. Use additional cans where free flow of mist is not assured.

We at AIS are doing our share as a responsible company to help keep our natural resources and environment clear and clean. We are pleased to introduce our new line of earth friendly, biologically degradable products that meet and exceed our usual high standards of excellence and performance while still meeting your requirements as the end user.

FOR PROFESSIONAL USE ONLY.

Additional Information

Unpleasant odors can often be difficult to eliminate. Constant cleaning and spraying will never completely remove stubborn smells that have embedded themselves into walls, carpets, ceiling tiles, upholstery, etc. Cigarette smoke, cooking odors, body odors and post-fire odors are just a few of the most common foul odors that persist in this fashion. This product is especially effective against nitrogenous and sulfurous odors emanating from urine, feces, decay, rancidity, animals and mildew. If odors continue to return after extensive cleaning then it is time to use **AIR-AIDE** Total Release Malodor Counteractant. **AIR-AIDE** chemically changes the organic material causing the odor so that the foul smells will not return after the fragrance has dissipated. Each canister will treat up to 6,000 cubic feet of area, eliminate odors from floor to ceiling in one easy treatment and leave the room smelling clean and fresh. Many public and common areas can not be treated conventionally due to traffic or occupancy. With **AIR-AIDE** simply set off the canister at the end of the day when the area is unoccupied and by morning the air is nice and fresh without anyone being inconvenienced. **AIR-AIDE** is available in three great fragrances; **Cinnamon, Peach** and **Vanilla**. **AIR-AIDE** is one of many earth friendly aerosol products from American Industrial Supply Inc. all of which are packaged in recyclable cans that make it easy for the end user to help us protect our precious natural resources.
