

# GREASE GUN

EARTH FRIENDLY  
Red Spray Grease  
in a Can

- CONTAINS NO FLUORINATED OR CHLORINATED SOLVENTS
- ENVIRONMENTALLY SAFE
- USDA AUTHORIZED FOR USE IN FEDERALLY INSPECTED MEAT AND POULTRY PLANTS
- THICK - CLINGING GREASE

USE ON: CHAINS, WINCHES, CABLES, GEARS, HINGES, BUSHINGS, PINS, TOOLS, LEVERS, ROLLERS, SLIDING DOORS AND WINDOWS

Product #4018

**GREASE GUN** Red Spray Grease in a Can is authorized by USDA for use in federally inspected meat and poultry plants. **GREASE GUN** penetrates and lubricates difficult to reach surfaces, air cures within 2 minutes and sets up to an extra heavy duty grease that holds up under wide temperature extremes (40°F to +500°F) and extreme pressure. Earth Friendly **GREASE GUN** also withstands water, acids, high pressure and is highly rust resistant. By using **GREASE GUN** your equipment will last longer and longer.

### DIRECTIONS FOR USE:

Shake well before using. Remove protective cap. Point opening in spray tip towards area to be sprayed. For hard to reach areas, insert red extender tube into hole in tip. Apply a light coat by spraying in quick, short bursts. Work part to distribute product evenly over entire surface. Spray as necessary to insure full coverage.

*We at AIS are doing our share as a responsible company to help keep our natural resources and environment clear and clean. We are pleased to introduce our new line of earth friendly, biologically degradable products that meet and exceed our usual high standards of excellence and performance while still meeting your requirements as the end user.*

### FOR PROFESSIONAL USE ONLY.

AEROSOL CANS CONSIST OF AT LEAST 25% RECYCLED STEEL AND ARE RECYCLABLE WHEN EMPTY.

3	FLAMMABILITY
1	REACTIVITY
1	PROTECTION

### INGREDIENTS

HEXANE  
NAPHTHERIC DISTILLATE  
ORGANOPHILLIC CLAY  
PROPANE/ISOBUTANE  
POLYISOBUTYLENE

### CAS NUMBER

110-54-3  
64742-53-6  
N/A  
68476-85-7  
9003-27-4

## Additional Information

**GREASE GUN** Red Spray Grease in a Can is a remarkable lubricant. This earth friendly product penetrates when applied then sets up as a high temperature heavy grease that is also designed to withstand extreme pressure. It is common knowledge that heavier greases last longer and lubricate better due to the simple fact that they do not evaporate but these greases are generally applied with a special grease gun through a "zirc" type grease fitting or are pre-packed by hand before installation. However, many critical areas that need constant lubrication do not have special fittings and are not pre-packed with grease. These areas need **GREASE GUN** for maximum protection against friction and wear. **GREASE GUN** is ideal for lubricating equipment that may not get serviced on a regular basis because the long lasting formula will not break down, dissolve or evaporate. **GREASE GUN** is an excellent choice for lubricating remote mechanisms that can be difficult to maintain because of location. The lubrication may only take a minute but getting to the equipment can be troublesome. Some areas in processing plants may require that the production line be stopped for maintenance. In either of these cases the longer the grease lasts the less often someone has to re-lubricate the equipment. **GREASE GUN** is one of many earth friendly aerosol products from American Industrial Supply Inc. all of which are packaged in recyclable cans that make it easy for the end user to help us protect our precious natural resources.
