

EARTH FRIENDLY
AIR DUSTER
High Pressure
Ultra Pure
Air Spray

100% OZONE SAFE • 0% VOC
COMPLETELY NONFLAMMABLE
ULTRA PURE
FILTERED TO 0.1 MICRONS
LEAVES NO RESIDUE

Product #4019

AIR DUSTER is a high pressure, ultra pure, moisture free gas ideal for removing microscopic dirt, dust, iron oxide deposits, lint and paper from: camera lenses, scientific equipment, disk drives and cartridges, timing devices, instruments, electromechanical devices, film, magnetic tapes, heads and card strip pickup units, optical pickups, computer printers, FAX machines, copiers and more. **AIR DUSTER** is specially formulated with no flammable ingredients and features a finger-friendly button which helps reduce finger tip chill and fatigue.

DIRECTIONS FOR USE:

Keep can in upright position. Hold can 2 inches from surface to be dusted. Operate in a series of short blasts. For pinpoint application, insert extension tube into actuator orifice. Do not tilt, invert or shake can. Tilting or inverting will dispense contents as a liquid. Liquid can cause frostbite. NOTE: Contact with product in liquid form may cause plastic materials to permanently discolor. Do not use on camera mirrors.

FOR PROFESSIONAL USE ONLY.

AEROSOL CANS CONSIST OF AT LEAST 25% RECYCLED STEEL AND ARE RECYCLABLE WHEN EMPTY.

1,1,1,2-TETRAFLUOROETHANE	811-97-2

Additional Information

AIR DUSTER is a good example of new technology helping the environment. Many industries use "canned air" products or spray solvents to clean film, equipment, instruments and magnetic and optical media. Virtually all of these products contain CFC's and are damaging to the environment. The convenience of these products has always been more important than the damage caused by their use. **AIR DUSTER** provides the convenience and performance sought by today's technical industries without any environmental damage. **AIR DUSTER** is 100% ozone safe, 0% VOC, completely nonflammable and leaves no residue. This remarkable product is ultra pure and is filtered to 0.1 microns to insure top quality. Use **AIR DUSTER** to remove dust, dirt, lint and other particles from surfaces that could not be cleaned otherwise. Optical surfaces, electromagnetic media, laser read media and devices are a few of the many types of equipment and surfaces that require periodic cleaning to maintain optimum performance. Using the wrong cleaner to do this kind of maintenance can badly damage the equipment. When in doubt use only the purest and finest filtered product available and that is **AIR DUSTER**. **AIR DUSTER** is one of many earth friendly aerosol products from American Industrial Supply Inc. all of which are packaged in recyclable cans to make it easy for the end user to help us protect our precious natural resources.
