

AMER-BUFF is a diluteable maintainer for cleaning a polished floor without damage to to finish. **AMER-BUFF** uses an all acrylic, alkali-soluable resin which exhibits outstanding leveling, high gloss and high wear resistance. **AMER-BUFF** cleans and brings a tough glasslike gloss back to the original finish in a "one-step" spray buffing operation. We have also added a wax thickener and mineral spirits for improved activity at +1000 RPM spray buffing.

DIRECTIONS FOR USE:

1. Mix **AMER-BUFF** with up to 3 parts water.
2. Spray a light fog of solution onto area to be cleaned.
3. Buff area with a red or gold pad until dry.
4. To obtain a mirror-like shine, buff with a white pad.

Additional Information

AMER-BUFF is the fastest and easiest way to bring a back a glasslike shine to your finished floors. Many floors look dull and dingy simply because the time and labor necessary to strip and refinish these areas is too great. In many cases floor care is handled by special crews working off hours to avoid any inconvenience to tenants or visitors. All of these factors add up to additional costs in time and materials, overtime, subcontractors, etc., things best avoided when possible. **AMER-BUFF** maintains finished floors with a minimum amount of labor and materials. In the same amount of time it takes to damp mop, **AMER-BUFF** will clean, remove scuff marks, and bring a tough glasslike shine back to your original floor finish. With this remarkable floor care product your finished floors will always look like new.
