LIQUA DYSH Heavy Duty Hand Dishwashing Liquid

Laboratory studies have shown **LIQUA DYSH** to be an excellent grease cutter. Years of refinement have enhanced **LIQUA DYSH**'s performance in cleaning tough grease and all other types of soils without compromising mildness to the skin.

DIRECTIONS FOR USE:

For routine cleaning of dishes, add 1 oz. of **LIQUA DYSH** per gallon of hot water. Drain and refill washing solution when suds are depleted. For presoaking of heavily soiled items, use 1 oz of **LIQUA DYSH** to 1 gallon of hot water. Allow items to soak for 1 hour or longer. **LIQUA DYSH** loosens tough burned-on or baked-on soils and grease, making clean up easier.

Contains no hazardous ingredients as listed in the following references: (1) CFR 29, 1910.1000, subpart Z, REV 01JUL88; (2) The Director's List of Hazardous Substances (CA); (3) Threshold Limit Values and Biological Exposure indices for 1989-1990 (ACGIH)

Additional Information

Dishwashing liquids are not all the same. A professional dishwasher will notice the difference between almost any product both good and poor. As with all **AIS** products, **LIQUA DYSH** was designed with two simple goals; high performance quality and a user friendly formula. This product is likely to be the very best dishwashing liquid available today. Certainly for light-duty use, performance and mildness may not be important, but for commercial and industrial applications these are the only two features that count. Studies have shown that **LIQUA DYSH** cleans more dishes per ounce than common dishwashing liquids with less irritation to the skin. If performance and mildness are important, use nothing less than **AIS's LIQUA DYSH** Heavy Duty Hand Dishwashing Liquid. For more information contact your local sales representative.
