**VALUE PACK # 7168**  
**REFILL # 7169**  
**DISPENSER# 9075**

For Professional Use Only

**FOAM IT** is a specially formulated NEW antibacterial foam hand soap. This light green, antibacterial foam lotion soap with a mild scent is 99% effective against most common bacteria and is perfectly suited for the healthcare, hospitality and food preparation industries. This unique cleanser will provide over 1200 hand washings per cartridge, that means fewer cartridge change outs.

Our dispenser is designed for high traffic, high usage areas. It has a tamper resistant lock, and is an ADA compliant. This makes it ideal for restaurants, health and exercise clubs, schools, hotels, and office buildings.

Our new **FOAM IT** comes packaged in two convenient ways. First you can purchase a value pack which comes with 8x1 liter units of **FOAM IT** and two easy dispensers. It also comes in a re-fill pack which is 8x1 liter units with no dispenser.

## Additional Information

Why use our NEW **FOAM IT** soap instead of your current traditional cleanser? Here is why, active foam bubbles spread rapidly across the hand, covering more skin area, providing more hand washings, and taking less time than traditional cleansers. For traditional liquid soaps, the user often presses the dispenser as many as three to four times and uses more cleanser than is needed. With **FOAM IT**, one dispensing is typical. The foaming action is created by our unique patented cartridge pump system, which takes a measured amount of **FOAM IT** cleaner, infuses it with air, and converts it to a mass of foam soap. Since both the cartridge and pump are sealed, you are assured of purity throughout. Furthermore, the flexible, recyclable cartridge collapses as it empties, leaving little or no product waste. This means more savings for your bottom line. Contact your AIS representative for a demonstration today!
