## IGS-2000

### NEW ACID-FREE FORMULA

**IGS-2000** is a powerful and completely safe biodegradable, non-corrosive, all purpose cleaner for removal of corrosive build-up on industrial machinery and equipment. **IGS-2000** also works extremely well on boiler room equipment. **IGS-2000** does not fume and is much safer and easier to use than other acids. It's thick clinging formula allows for a longer clean time. **IGS-2000** will also descale and delime numerous types of machinery and equipment. **IGS-2000** will remove rust, calcium, beer stone, grease and lime build-up. Ideal for beverage, bottling, food processing and packaging plants.

#### DIRECTIONS FOR USE:

**CLEANING AND DEODORIZING:** For machinery, equipment, and boilers. Use at full strength. Let stand for a few minutes. Dwell time depends upon the severity of soil to be removed. Rinse well.

**FOOD/BEVERAGE PLANTS AND FOOD PROCESSING AREAS:** Use for cleaning floor and wall tile equipment. For large areas use the recommended **IGS-2000** Foamer or applicator. Dilution rate for foaming is 1 part **IGS-2000** to 5 parts water.
