Product:
7191
1 canister
contains 45 towels

For Professional Use Only

PRESERVE GOBBLER Micro-Emulsion Protectant and Conditioner is formulated to penetrate and protect vinyl, plastic, rubber, upholstery, finished wood, metals, leatherette and many similar materials. Original beauty and luster can be restored to tires, vinyl tops, dashboards, seats, luggage, furniture, sporting goods and equipment, handbags, jackets, radios, TV's, cameras, stereos, underwater equipment, airplanes, boats, motorcycles, typewriters, book bindings, door and window molding, and floor mats. **PRESERVE GOBBLER** prevents further damage from moisture, ozone, ultraviolet rays and oxidation which can cause dulling and embrittlement.

DIRECTIONS FOR USE:

Prior to application, surface should be cleaned with an appropriate detergent material. **PRESERVE GOBBLER** should not be applied over grease, oil, dirt or other soils. Pull one sheet from container and wipe desired surface in a circular motion until product is evenly distributed over the area. Discard used wipes appropriately.

NOTE: Do not use on carpet or fabrics.

Additional Information

PRESERVE GOBBLER is the new fast, easy & economical way to restore vinyl, rubber and other hard surfaces with one fast swiping towel. The unique penetrating action of **PRESERVE GOBBLER** allows the product to soak deep into pores restoring color and providing protection beneath as well as on the surface. This advanced formula contains no harsh solvents or damaging petroleum distillates found in "armor" type products. **PRESERVE GOBBLER** features a micro-emulsion protectant and conditioner that restores pliability and color to dried out and faded vinyl, leather, wood, plastics and many other surfaces. For automotive use, **PRESERVE GOBBLER** not only enhances the beauty of the vehicle but is usable on every surface except glass so you spend less time fumbling with three or four different products when all you need is one. Ultraviolet rays from sunlight can be severely damaging to vinyl, wood and leather, just to name a few, **PRESERVE GOBBLER** not only restores damaged areas but also protects them from future damage from a variety of sources. **PRESERVE GOBBLER** is so versatile that no maintenance department should be without it. Use **PRESERVE GOBBLER** instead of furniture polish, stainless steel polish, vinyl & leather protector, plastic & fiberglass cleaner/polish, tire dressing or any "armor" type product. **PRESERVE GOBBLER** is ideal for use on expensive leather seats found in luxury automobiles and furniture because this formula will prolong the life of the material not shorten it as with other products.
